- Member of the Board, 2005-2010, Tampere University of Technology, Pori, Finland

## CICERO Learning Network

- Established in 2005, coordinated by the University of Helsinki, Finland.
- Promotes high level, multidisciplinary research on learning
- A network for distinguished researchers and research groups on learning
- To address emerging global, national and individual learning challenges
- Nurtures innovations and synergies among research communities, businesses and industry

## Mission statement

- multidisciplinary research
- cooperation and networking
- the dissemination of research results together with companies and funding bodies
- education (e.g. lecture series, short courses, symposiums, conferences, researcher training)
- societal influencing and interaction.

## Research areas

Learning, the brain and the mind

Learning across the lifespan and Lifelong learning

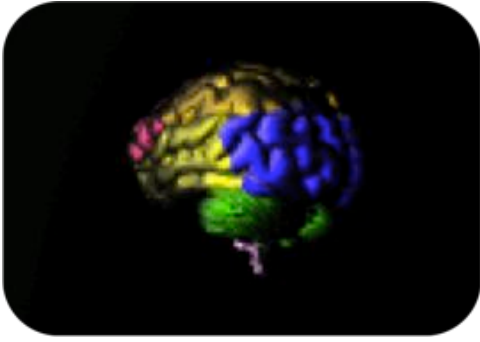

Learning and technology

Learning and the society

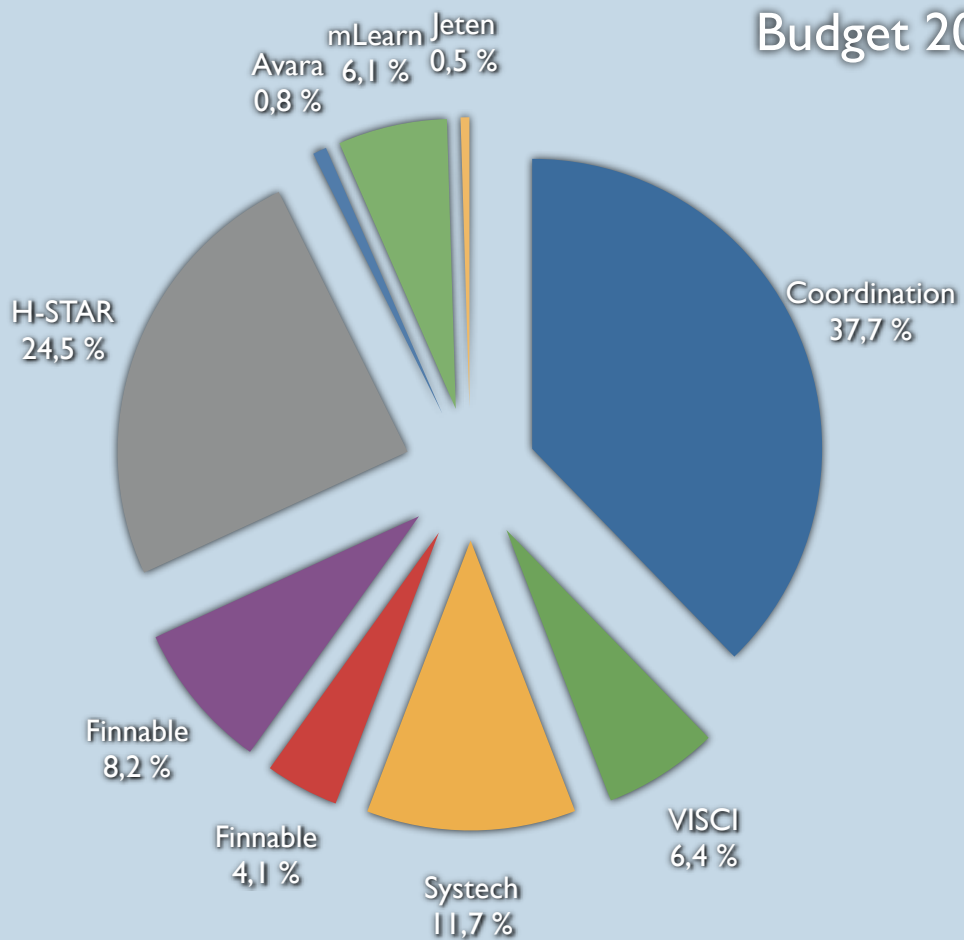

New understandings about learning  
Learning Industry

## Learning Brain Technology

## Budget 2012

# Funding 2012
